EXAMINATION QUESTIONS

—Bituminous mine foremen—Quantity of air, ventilation; duties of miner, driver, machine runner and motorman; timbering *1065, Health and safety, mechanical vs. furnace ventilation, coal dust, safety precautions.	1110
—Illinois, mine examiners—Ventilation, barometer, water gage reading, sights by compass, horsepower of engine, breaking strain of hoisting rope.	198
—Ill. mine inspectors—Difference between coal seam and mineral vein, steam jet and fan, tons coal in 5 acres surveying, geology.	1213
—Indiana fireboss—Safety lamps, inspection gaseous mine, ventilation, booster fan 608, Barometric pressure, quantity of air, mine gases, coal dust.	665
—Indiana mine bosses—Ventilation, mine tracks, safety, examining roof, haulage accidents, timbering 507, Dust explosions, working abandoned mine, mine fire, rescue work.	557
—Mine examiners—Oil used in Davy lamp, mine gases, regulator, velocity of air current.	27
—Mine inspectors—Electrical units and current, mine gases 828, Quantity of air, pressure on mine dam, ventilating pressure, ventilation of two airways 875, Capacity of air compressor, anemometer, rescue apparatus, volume of air.	960
—Mine managers—Coal dust, ventilation (Correction 246), pressure on engine piston, piston speed, mine gases 152, Pressure air volume, power fan engine, equivalent orifice, firedamp, pumping.	1160
—Misc.—Anemometer reading (Correction 328), air measurement, pressure at slope bottom.	246
—Misc.—Dust explosion, pitch of prop personal accidents, diameter 14 ft. collar beam, volume of air.	1014
—Misc.—Form of piling, length of airways, drainage, tons of coal from a given block.	1320
—Misc.—Mine gases, first aid.	1280
—Misc.—Mine gases, instruments used in coal mining, safety lamps, treatment for electric shot, timbering.	64
—Misc.—Mine gases, evaporation of water into steam, force of blowout shot, hoisting.	721
—Misc.—Pressure in ventilation, barometer readings, weight of air, quantity of air in circulation.	458
—Misc.—Pumping, horsepower in ventilation, hoisting engine water gage, velocity of air, driving cut-off, current velocity, resistance in airway.	328
—Misc.—Quantity of air, horsepower on the air, steam pressure in pumping, removal of mine gases, fan ventilation, gas generated, percentage of gas.	280
—Misc.—Rescue work, velocity of air, tons of coal in 10-acre block, quantity and weight of methane, of carbon dioxide.	772
—Misc.—Weight of air, length of airway, horsepower to hoist 1200 tons, mule haulage, mine gases.	420
